

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (previously presented) : An electrically opening and closing mechanism comprising:

electrically driving means for electrically rotating a first member which is rotatably mounted on a second member;  
a first clutch for allowing said first and second members to frictionally contact each other while allowing said first member to be manually rotated when said first clutch is engaged;  
a second clutch for allowing said first member to be rotated by said electrically driving means when said second clutch is engaged; and  
an operating part for disengaging said first clutch and engaging said second clutch when said operating part is pushed.

2. (original) An electrically opening and closing mechanism as set forth in claim 1, wherein each of said first and second clutches is a friction clutch.

3. (original) An electrically opening and closing mechanism as set forth in claim 1, wherein said first clutch, said second clutch, said operating part and said electrically driving means are arranged concentrically with a rotation center of said first and second members.
